

**Table of Contents  
and  
Acknowledgments**

## Table of Contents

### **Acknowledgments**

### **Background Information**

Information about water

Picture I drew of a water molecule

The water cycle

Information about a movie I saw on the computer

Bibliography

### **Study Plan**

Problem, Hypothesis, IV, DV, and CV

Materials

Procedure

Safety Suggestions

### **Journal Entries**

Notes before doing the experiment

Pictures of the experiment

Trial 1, 2, and 3 notes

### **Analysis and Conclusion**

Graphs of results

Conclusion

Ideas for future study

## Acknowledgments

1. My mom took some of the pictures, did some of the typing, and helped my burned wrist feel better.
2. My sister helped me make my graphs on the computer and gave me other suggestions for my project.
3. My dad gave me the idea for the project by yelling at me when I kept taking the lid off of the pot when making macaroni.
